

We are an Association of legal entities integrating representatives of the business environment, technological innovation carriers, representatives of public administration and academic environment. We are open to all subjects with interest in support of development and propagation of Smart city concept and urban regions in Slovakia.

The Association currently consists of 20 active members. The Association was established in 2016 and since then it has grown by another 14 members. All subjects and other prospective members are welcomed to join the Association.

Slovak Smart City Cluster initiative was created in response to the development not only within Slovak business environment, but also municipalities. Especially in the context of developing the new synergic infrastructure we need for 21st century economy. We integrate innovations in terms of data processing, sustainable energy sources and their sustainable use and shared economy.
