

Danube Tech Summit 2023

12 December, Vienna

Become a Strategic Partner for the DTS 23

About Danube Tech Summit

The DTS is a cross-border invitation only event, planned by GLOBSEC in Bratislava, Slovakia, and executed in Vienna, Austria, with the support of the Austrian, Slovak and Czech governments. It will bring together 150–200 representatives of the whole region and beyond including the founders and CEOs of tech companies, fast-growing start-ups, unicorns' executives, chief innovation officers, ministers from the region with the innovation, economy, and finance agenda, EU policymakers and public representatives to suggest effective solutions on how the progress and innovation potential can be reinforced in the Danube region. Project is part of the GLOBSEC Danube Tech Valley Initiative and is financially supported by Federal Ministry Republic of Austria Labour and Economy.

Topics

The first edition of the DTS will focus on key issues related to energy transition, digitalization and green tech. The energy transition is one of the long-term megatrends that will shape the global economy, business, and society. In this context, substantial investment opportunities exist and are shedding light on the best practices and cutting-edge solutions, to enable digital transformation across the energy value chain, while also focusing on the identification of concrete business opportunities in the sector will be one of the Summit's priorities. Moreover, the urgency of reshaping energy systems in a smarter, innovative, sustainable, and secure way will be underlined.

What we offer to our Partners

We strongly believe that presented cooperation framework enables the company to strengthen its regional impact, access, visibility, positioning and influence based on:

- ▶ Positioning via becoming the Founding Partner of what aspires to become the most important innovation and energy transition event in the CEE region and beyond. It provides a unique possibility to demonstrate your solutions and thought-leadership.
- ▶ Impact on relevant public and private sector stakeholders, where you can focus on topics of your interest.
- ▶ Engage in thought-leadership debates on financial, economic, digital and sustainability trends whilst gaining valuable information on the potential benefits, risks, and the best practices of their utilization and mitigation.
- ▶ Relationship Building opportunities within the GLOBSEC community, including key and high-level officials, business representatives from the CEE-region and the representatives of the European institutions.
- ▶ Demonstrate your commitment to Austria and the CEE-region at large.
- ▶ Drive and position strategic and regulatory priorities for the public and private sector on innovation and energy transition, as well as help policy makers better understand the issues your company and sector face.
- ▶ Strong Brand Exposure at all DTS 23 related visual materials and content.

*GLOBSEC offers three different levels of Strategic Partnerships for DTS 23:
General Partner Package, Main Partner Package and Partner Package.*

*Each level differs in terms of opportunities and pricing.
